

60 YEARS OF MANUFACTURING EXCELLENCE

Unmatched experience in bulk material handling equipment

Bulk Material Processing Made Better

Our bulk material storage solutions and weighing solutions optimize the bulk flow process in facilities throughout the United States and across the globe.

STORAGE BINS

INDUSTRIAL METAL STORAGE BINS

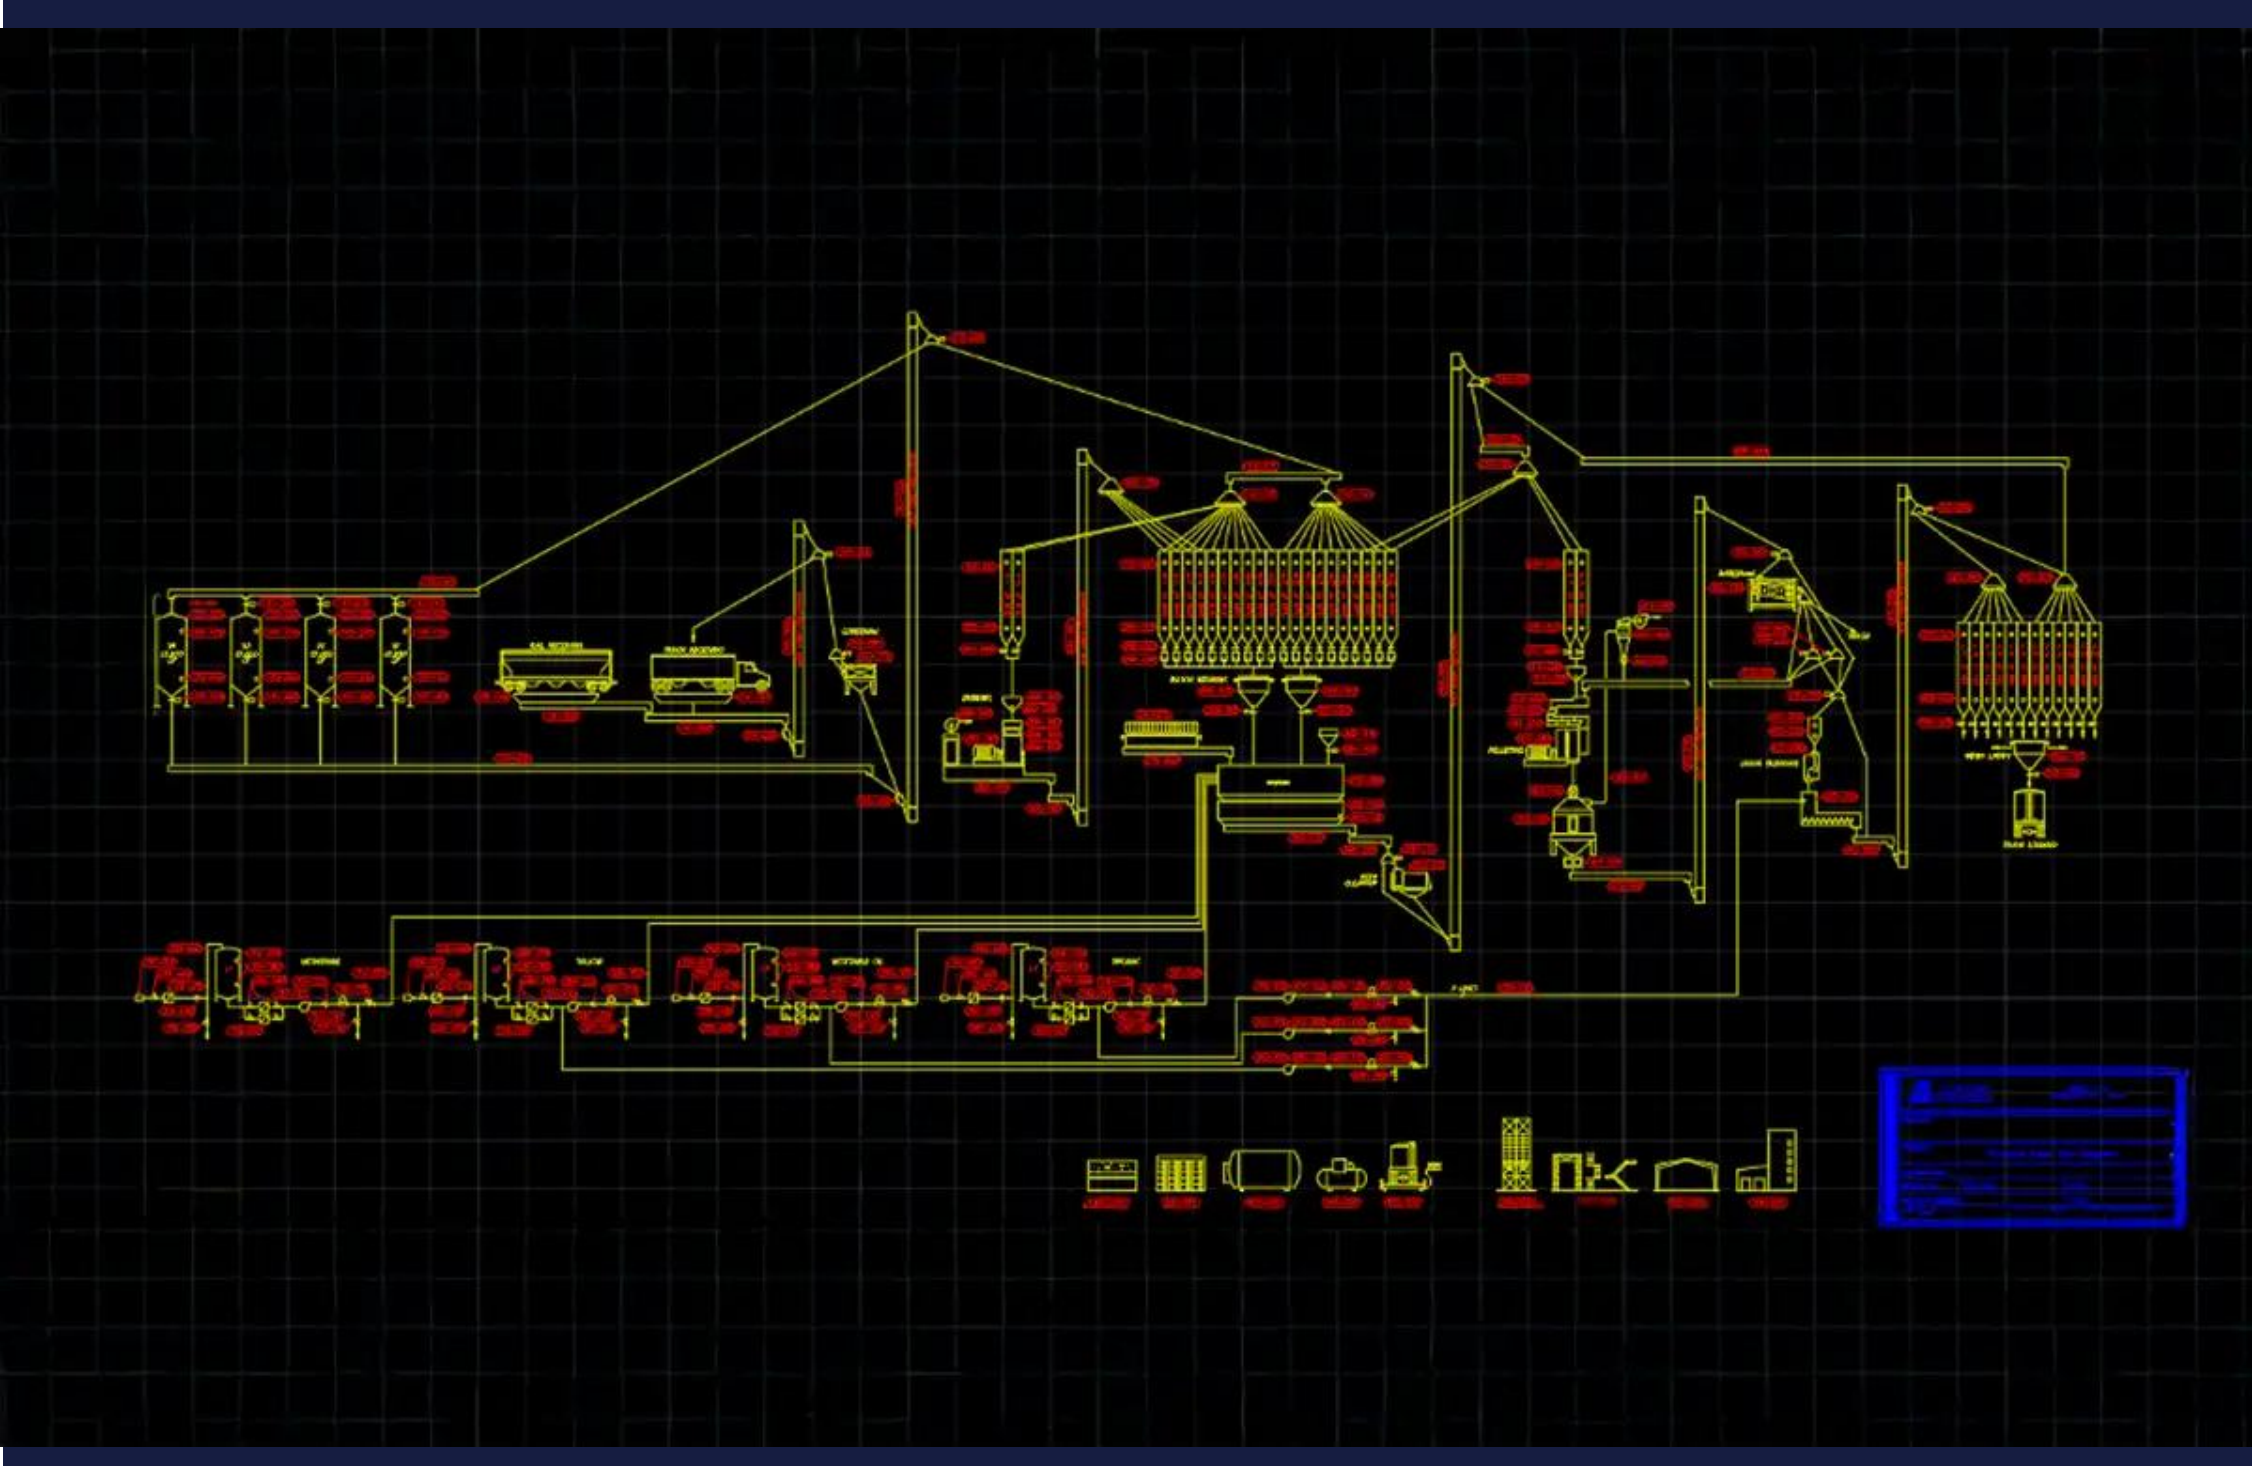

Abel led the way in designing bulk material storage bins that are square rather than round, making them easier to cluster. Standard or customized solutions are available to fit any application and nearly every storage capacity. Choose from three designs: smooth wall, standard wall or corrugated wall.

WEIGHING SYSTEMS

INDUSTRIAL WEIGHING SYSTEMS

Our industrial weighing systems improve precision, speed and accuracy when handling any type of dry or liquid aggregates. Our innovative feeder design makes our micro-ingredient weighing systems more reliable. Load trucks 3 to 5 times faster with our high-speed lorry weighing systems.

ENGINEERING & DESIGN

ENGINEERING & DESIGN

At Abel, our goal is your success. If you have a bulk material processing challenge, our engineering and design team is ready to take it on. Backed by decades of experience, the team provides innovative solutions that will get your processing job done better and faster.

CUSTOM METAL FABRICATION

CUSTOM METAL FABRICATION

Using the latest technology in laser cutting, forming, bending, welding and assembly, we can create metal parts and components to meet your exact specifications. Trust in our quality craftsmanship using a variety of metals, as well as plastics and wood.

Processing Solutions for Any Industry

No matter what your industry, Abel can design and manufacture a complete processing solution. Our equipment handles any free-flowing bulk materials, from aggregates like grain and gravel, to liquids, including sludges and slurries.

Industries we serve include:

ANIMAL FEED

CEMENT & AGGREGATES

GRAIN

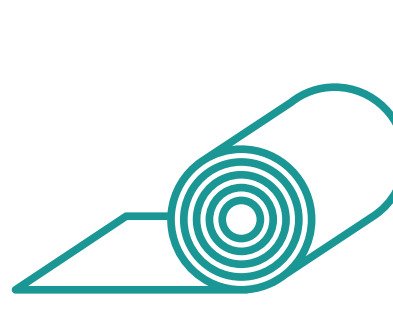

SEED PROCESSING

FOOD PROCESSING

PLASTICS

RUBBER

FERTILIZER

We have a longer history of crafting industrial metal storage bins and industrial weighing systems than **many other providers in the industry.**

Because of our long history, you can feel confident that whether you need an off-the-shelf piece of equipment or a customized system, we'll deliver the right solution for your application.
